FOR IMMEDIATE RELEASE

Press Release

Milliman releases new analytics, dashboard and reporting capabilities in Integrate™
Award-winning actuarial modeling software enhanced with powerful Microsoft BI tools

Seattle - March 31, 2016 - Milliman, a premier global consulting and actuarial firm, today announced the release of Integrate™ with Microsoft Power BI Embedded, a suite of business analytics tools to analyze data and share insights.

Integrate is Milliman's award winning, end-to-end financial and risk modeling technology platform, powered by the Microsoft Azure cloud platform.

Integrate utilizes Power BI to enable its users to quickly create and share data, through interactive dashboards and reports. Power BI provides a rich immersive experience that allows Integrate users to visualize and analyze data in one place, simply and intuitively. Using Power BI, Integrate delivers a scalable and cost efficient solution that meets the ever growing BI demands of users.

Pat Renzi, Milliman Principal, says, "We are thrilled to provide our clients with industry-leading business intelligence technology, seamlessly embedded within the Integrate platform. These new capabilities will provide our customers with the ability to quickly and clearly visualize, analyze, and collaborate on mission-critical information on any device."

James Phillips, Microsoft Corporate Vice President of the Business Applications, Platform and Intelligence (BAPI) Organization adds, "At Microsoft, we're committed to enabling our customers everywhere to get insight from their data. We're delighted that Milliman is embracing the opportunity to build an intelligent application with the completely new Power BI Embedded service to bring this same value to their customers and partners."

Integrate is a trademark of Milliman, Inc., registered in the U.S., U.K. and France.
